SUMMARY

Passionate and results-driven **full-stack developer** with **8 years of overall experience** in building dynamic, user-focused web applications, including **5 years specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js)**. Proficient in developing **scalable, efficient server-side solutions using Node.js**, with expertise in building **REST APIs and microservices** to optimize application performance. Skilled across both **front-end and back-end technologies**, delivering **high-quality, performant applications**. Adept at **collaborating with cross-functional teams** to create seamless user experiences, while committed to **continuous learning and adopting innovative technologies** to drive project success.

EXPERIENCE

06/2025 - 04/2026

Noida, India

Full Stack Developer (MERN) Alchemy Techsol (App-Inventive)

- Designed and implemented Emaar's internal employee asset management system, improving asset lifecycle visibility and administrative accuracy.
- Developed comprehensive property records management solutions, including CPA, RCPA, and invoice processing modules, to streamline documentation and compliance.

08/2021 - 01/2025

Mohali

Full-stack Developer Capslock Digital

- Developed and deployed full-stack web applications using React.js, Node.js, Express.js and Laravel.
- Worked on XR-Sports platform, adding features like chat, community interaction, and dynamic pages.
- Implemented token-gating for events and tournaments using Near Blockchain NFTs, ensuring exclusive access for NFT holders. Developed and integrated smart contracts to authenticate and manage user participation securely and efficiently.

11/2019 - 08/2021

Mohali

Freelance Programmer

- Worked as a PHP developer with freelancer.
- Integrated third-party APIs to enable seamless payment gateway.

06/2016 - 11/2019

Mohali

Php Web Developer Aquilis Web Solutions

- Developed "EasyMobileRecharge," a dynamic recharge portal website using Core PHP and JavaScript.
- Integrated third-party APIs to enable seamless mobile recharges and transactions. Designed and implemented a user-friendly interface and optimized backend processes for enhanced performance and reliability.
- Designed and developed APIs for a mobile application similar to Khatabook, enabling efficient financial management and transaction tracking. Ensured robust security and scalability to support seamless integration with the app's frontend.

06/2015 - 06/2016

Mohali

PHP Developer (Intern) Nascenture Software Solutions

- Gaining hands-on experience in building and managing websites using WordPress and Core PHP. Focused on crafting responsive, user-friendly designs and implementing custom functionalities to meet diverse client requirements.
- Implemented secure user authentication with JWT, database management with MySQL, and server-side logic.

PROJECTS

Emaar Omni Asset Management

Designed and built Emaar's internal employee asset management system.
Improved asset life cycle visibility across departments with multi-level approval workflows.
Enhanced overall administrative accuracy and operational efficiency.

IN-Depth Realty (MLS Based Property Website)

InDepth Realty is a comprehensive real estate platform providing up-to-date property listings, expert guidance, and personalized services for buyers, sellers, and investors. Whether you're looking for your dream home or seeking to sell, InDepth Realty connects you with trusted agents and the latest market insights to simplify your real estate journey

- Developed "In-Depth Realty," an MLS-based property website tailored for the US and Canada markets, facilitating property buying and selling.
- Utilized React.js to create a responsive and user-friendly frontend and implemented a robust backend with Node.js and MongoDB to ensure efficient data management and seamless user experiences.
- Implemented an auto-customization feature for website themes and colors, enabling dynamic adjustments tailored to user preferences. Designed the system to offer seamless configuration, enhancing the user experience in a SaaS-like environment.

PROJECTS

XR Sports | Full Stack Project

XRSports is an innovative online platform offering interactive sports challenges, tournaments, and gaming experiences. It connects athletes, gamers, and fans in a dynamic community where competition meets entertainment.

- Developed "Activelink," a SaaS-based User Platform Management System with a customizable admin panel.
- Leveraged React.js for an interactive frontend, Laravel for seamless backend API integration, and MySQL for efficient database management.
- Implemented features such as chat, community forums, and events/tournaments.
- Implemented a seamless Near wallet auto-creation feature during user signup, enhancing user onboarding and simplifying blockchain interactions within the platform.
- Integrated NFT badge validation using Near Blockchain Mintbase to ensure secure access to platform functionalities. Enabled user customization with profile avatars for a personalized experience.

Easy Mobile Recharge

EasyMobileRecharge is a convenient online platform for instant mobile, DTH, and data card recharges. It offers secure transactions, multiple payment options, and seamless services for customers and retailers across various networks.

- Developed "EasyMobileRecharge," a comprehensive recharge website supporting mobile, DTH, and datacard recharges.
- Built with Core PHP and JavaScript, the platform integrates third-party APIs for transactions.
- Features include vendor and retailer recharge modules, a third-party API service for external platforms, and fully functional admin and user panels for streamlined management.

Dangerous Guitar

DangerousGuitar is an online learning platform offering guitar lessons from professional musicians. With video tutorials, step-by-step guidance, and resources for all skill levels, it helps guitarists master techniques and expand their musical skills.

- Developed "DangerousGuitar," a guitar learning website built on WordPress. The platform features a fully customizable theme and plugins, providing users with a dynamic and engaging learning experience.
- Integrated features to enhance user interaction and optimize content management for seamless updates and scalability.

EDUCATION

2010 - 2013

- Bachelor of Computer Applications
Kurukshetra University
